

DIDSBURY PIONEER

VOL. X

DIDSBURY, ALBERTA, WEDNESDAY, NOVEMBER 6th, 1912.

No. 45

There is A SNAP A STYLE A DASH to our SUITS FOR FALL

That will please the most discriminating dresser, the man who demands the best and gets it.

You'll enjoy looking at these splendid new suits. The fabrics are beautiful examples of the weaver's art. The garments themselves are masterpieces of the tailoring craft. These splendid values are now being shown in a variety of models and fabrics in a wide range of prices. You will find just the one to suit you here.

Come and see our Suits and Overcoats, even though you have no intention of buying now, you should not forego the pleasure of seeing the new things anyway.

**J. V. BERSCHT,
HABERDASHER**

UNION BANK OF CANADA

Paid-up Capital Reserve Fund & Undivided Profits over \$8,175,000
Total Assets over \$63,000,000

Save Systematically

Haphazard, occasional saving seldom accomplishes much. It's the steady, persistent, regular depositing of so many dollars a week, or month, or season, in the Union Bank of Canada, which makes one financially independent. The money accumulates all the more rapidly, too, because of the interest which is added every six months.

Try it.

The boy's appetite is often the source of amazement. If you would have such an appetite take Chamberlain's Tablets. They not only create a healthy appetite, but strengthen the stomach and enable it to do its work naturally. For sale by all dealers.

Didsbury Curling Club, Limited

A meeting of the Didsbury Curling Club, Limited, was held in Dr. Reid's office on Friday evening last for the purpose of electing officers for the company for the ensuing year. Unfortunately the shareholders of the company did not attend the meeting in very large numbers, although there were enough present to transact the business on hand. A vote of thanks was given to the retiring officers for the good work accomplished during the past year and they were all re-elected to office as follows: H. W. Chambers, president; Dr. Reid, J. Anderson, W. Durrer, directors; J. M. Reed, secretary-treasurer.

Electric lights will be installed in the curling rink.

It was decided to throw open the skating rink free to school children on certain afternoons which are to be decided later.

City Planning Convention

There is a City Planning Convention to be held in Edmonton on November 15 and 16. Mayor George Armstrong of Edmonton is vice-president of the City Planning and Housing Association of Canada and it is through his initiative that the convention has been called.

Every city and town in Alberta has been invited to send delegates to the convention and a large attendance is expected and particularly desired since the convention energies will be strongly directed toward securing legislation that will enable cities and towns to control the disposition of land and buildings in and about the several communities in such a manner as will lend itself to growth along good lines. Such legislation as this has been adopted by Nova Scotia and New Brunswick and to some extent by Ontario. A bill looking toward a like end is being prepared by the City Planning Commission of Winnipeg and the Edmonton Commission will take up its work with all of this as a guide. The proposition is an important one, particularly at a time when so many Alberta cities and towns are in a formative stage and where so much of future development along economical and thoroughly good lines depends upon what is done now.

A number of prominent men have been invited to address the Edmonton convention, including ex-Mayor W. Sanford Evans of Winnipeg, president of the national association for city planning, Dr. A. J. Douglas, medical health officer of Winnipeg, Mr. Clifford T. Jones of Calgary and others who have made considerable inquiry into the theories and practices of city planning.

Central Telephone Office

The new Central Telephone office in the building west of the Golden West Hotel is now ready for business. Work has been rushed on the installation and a continuous telephone service is now ready for the use of subscribers.

AROUND THE TOWN

W. MacIntyre has bought out the south end livery business from C. Hillebrecht.

Mrs. H. S. Patterson left on Tuesday of last week for a visit to her home in Nova Scotia.

Messrs. W. Nelson and Dr. Gaddes of Sunnyslope were in town on Tuesday on business.

G. P. Scott, a former resident of Didsbury, now of Calgary, was a visitor in town on Wednesday.

Miss Winnie Moyle entertained a number of her little friends at a party on Saturday afternoon last.

Mrs. A. A. Stupler will receive on Thursday the 14th inst., and afterwards on the first Thursday of each month.

Didsbury Lodge I.O.O.F. degree team will exemplify the first degree at the meeting on Thursday night. All members are requested to be present.

Mr. M. May will hold a sale of farm stock, machinery, household goods, etc., one mile south of Elkton P. O., on Thursday, Nov. 14, also Mr. John Haug has a sale one mile west of Bergen P. O. on Wednesday, Nov. 20.

Don't forget that the "Mixed Farming Special" visits Didsbury on Saturday afternoon. This train is meeting with great success wherever it is showing and it is claimed is very instructive for the farming community. Come in and see it.

The Halloween Social

The social given by the Loyal Temperance Legion on Halloween night was a great success. There was a large crowd of young people present and everybody had a good time. It was held in the assembly hall in the school house. The room was nicely decorated with flags and red, white and blue bunting. Pumpkins with lighted candles in them and Chinese lanterns adorned the windows of the room.

As the guests went in they were handed slips of paper, each having half a proverb on it, and they had to shake hands with a ghost, who was standing at the door to receive them. Once in the room the person who had the remaining part of the proverb was the partner for the evening of the person who had the first part. A curtain was hung up, in the curtain behind which was a witch beside her kettle, who was willing to tell your fortune free of charge. The first part of the evening was taken up with a contest. Slips of paper were pinned to the wall with two or three sentences on each. Every sentence represented the name of a person in town. A prize was given to the couple who got the largest number of names right out of the forty. Miss Osmond and Mr. Knight were the prize winners. Rev. Mr. Milton favored the assembly with a speech, "How Halloween Originated," after that the lights were turned out and ghost stories were told. Later in the evening a taffy pull was indulged in. This was followed by refreshments and the gathering broke up at a late hour.

In the early part of the evening Principal Butcher favored the assembly with some music on the piano. The Rev. Mr. Marshall and Mr. and Mrs. Moyle were present and helped to make the evening a success.

President Grant of the Legion and the Misses A. Bennett and M. Mow are to be congratulated in providing such a splendid evening's entertainment for the young people.

Mixed Farming Special

Didsbury, the most noted mixed farming section in the province, will be visited by the Mixed Farming Special train on Saturday, November 9. The train will arrive at 12.40 and leave at 6 p. m. Lectures will commence at 2 p. m. and continue until 5 p. m. The live stock will be unloaded and the judges will use the animals for illustration purposes during the course of their lectures. Special attention will be given to the dairy types in Didsbury. S. G. Carlisle of Chesterville, Ont., a noted breeder of dairy cattle, will use a Holstein bull from the Laycock farm at Calgary and an Ayrshire cow from the herd of Rowland Ness, De Winton, for demonstration during his lecture. Mr. C. P. Marker, provincial dairy commissioner, will talk on dairying in one of the lecture coaches and demonstration of the Babcock tester will be given in the dairy car. Alex Gal

braith of DeKalb, Ill., one of the most noted breeders of Percheron horses in America, will address the farmers of Didsbury on this breed. Bryce Wright of DeWinton, Alta., an authority on Clydesdales, will discourse upon this breed. Live Stock Commissioner W. F. Stevens will have hogs and sheep for his subjects which is assurance that justice will be done to those animals. Professor Elliott of the Canadian Pacific will talk on mixed farming, the most fruitful topic of all. Seeds and weeds will come in for attention at the hands of A. McKenney. Mr. C. E. Lewis, superintendent of fairs and institutes, who is in charge of the train, will devote his time to beef cattle. Dr. Rutherford will discourse upon the dual purpose cow. Mr. Foley will be on hand all the time in the poultry car. One of the most interesting features of the train is the domestic science department, in charge of Miss Stiven. Every woman and girl in town should attend this lecture, which will be given in one of the lecture coaches. No farmer and no farmer's wife can spend three hours more profitably than by visiting this train.

To Defeat Winter Ills

START NOW

Susceptibility to colds, sore throats, tonsillitis and such, indicate impoverished vitality—lack of reserve strength to weather changing seasons.

A spoonful of **SCOTT'S EMULSION** after each meal starts healthy body-action like a small match kindles a great fire—and more: it makes rich, healthy, active blood—fortifies the tissues and stimulates the appetite—it makes sound body-strength.

SCOTT'S EMULSION is the purest cod liver oil, made cream-like and palatable without alcohol or drug—the quintessence of purity.

Reject imitations they are impostors for profit.

F. L. BENEDICT & CO. Montreal

The historians of the Balkan War have to mind their P's and Q's at the to keep their eyes on the Z's at the same time.

Attacks of cholera and dysentery come quickly, there seldom being any warning of the visit. Remedial action must be taken just as quickly if the patient is to be spared great suffering and permanent injury to the lining membranes of the bowels. The readiest preparation for the purpose is Dr. J. D. Kellogg's Dysentery Cordial. It can be got at small cost at any drug store or general dealer's, and it will afford relief before a doctor can be called.

Mrs. Jax—What's the difference between a kleptomaniac and the garden variety of robber?
Jax—Merely a difference in the price of their lawyers.

WOMAN'S MOST SUCCESSFUL MEDICINE

Known All Over The World
—Known Only For The Good It Has Done.

We know of no other medicine which has been so successful in relieving the suffering of women, or received so many genuine testimonials, as has Lydia E. Pinkham's Vegetable Compound.

In nearly every community you will find women who have been restored to health by this famous medicine. Almost every woman you meet knows of the great good it has been doing among suffering women for the past 30 years.

Fox Creek, N. B.—"I have always had pains in the abdomen and a weakness there and often after meals a soreness in my stomach. Lydia E. Pinkham's Vegetable Compound has done me much good. I am stronger, digestion is better and I can work with ambition. I have encouraged many mothers of families to take it as it is the best remedy in the world. You can publish this in the papers."—Mrs. WILLIAM S. BOURQUE, Fox Creek, N. B.

In the Pinkham Laboratory at Lynn, Mass., are files containing hundreds of thousands of letters from women seeking health, in which many openly state over their own signatures that they have regained their health by taking Lydia E. Pinkham's Vegetable Compound, many of whom state that it has saved them from surgical operations.

W. N. U. 923

Put Your Head to the North
Experiments are now being conducted at Columbia University to prove the proof of the theory that people who sleep with their heads pointing toward the North Magnetic Pole and their feet towards the south sleep more refreshed than those who sleep otherwise.

Do you sleep well?
Are you in perfect health?
If not you had better box the compass before retiring. Every man, woman and child in this broad land should turn his or her head around until the head points north and the foot south. Then only will his or her sleep be deep and sound as possible, all other things being equal. Then only will he or she arise with nerves rested and with proper tone to the entire body.

Nonsense, rot, you say. Yet experiments at Columbia University seem to bear out this theory which is almost as old as the hills.

Dr. Walter J. Clarke, one of the best known exponents of the use of electricity, not only for the cure of diseases but for the soothing effect it has on overworked and tired nerves, is a firm believer of this theory.

The truth of this theory, which is a very old one, has been demonstrated thousands of times, says Doctor Clarke. But it is only just recently that scientific proof has been produced. We now understand why it is so. By electrical stimulation of the nerve fibres one, can either rest them or make them healthy, if diseased. Many diseases that were formerly treated by the giving of drugs are now cured by electricity. There is no doubt that sleeping with the head to the north is beneficial.

A Pleasant Purgative.—Parsellee's Vegetable Pills are so compounded as to operate on both the stomach and the bowels, so that they act along the whole alimentary and excretory passage. They are not drastic in their work, but mildly purgative, and the pleasure of taking them is only equalled by the gratifying effect they produce. Compounded only of vegetable substances the curative qualities of which were fully tested, they afford relief without chance of injury.

Doesn't Expect a Bite
Going fishing?
Yep.
You don't seem very cheerful about it!
I'm not. You see I'm going with a fellow who has promised to take me where he always catches them.

TAKEN HOME ON A MATTRESS

How A Sufferer From Sciatica Found Permanent Relief.

Fierce darting pains, pains like red hot needles being driven through the flesh in the thigh, perhaps down the legs to the ankles—that's sciatica. None but the victim can realize the torture of this trouble, and many suffer from it hopelessly in the belief that it cannot be cured. This is a mistake; sciatica is a nerve trouble, and if the starved nerves are properly nourished with rich, red blood the trouble will soon disappear. Dr. Williams' Pink Pills make just the new, pure blood needed to feed the sciatica nerve and drive out the racking pain. It has been proved over and over again that they can do this and we offer now the following additional piece of evidence. Mr. E. H. Pastorious, Harrow, Ont., says: "Some years ago I was terribly afflicted with sciatica, starting just in my hip and then extending through the leg to the foot. At the time I was attacked I was away from home and had to be brought home on a mattress in a spring wagon, and the agony of the trip was almost more than I could endure. Reaching home I was not able to sit up and remained in bed for six weeks. The doctor did not help me and I tried a number of medicines recommended by neighbors. I paid \$5.00 a bottle for one preparation, but it was no better than the rest, and I began to think there was no cure for me. While suffering this untold misery Dr. Williams' Pink Pills were recommended, and my wife got me a supply. In the course of a few weeks I began to feel better and could get around with the aid of a cane. I kept on taking the Pills until all the pain disappeared and I felt as well as ever I did. I have never had an attack of the trouble since, and although I am now 65 years of age I feel as vigorous as I did at 40, all of which I ascribe to Dr. Williams' Pink Pills."

If you are suffering from sciatica or any nerve or blood trouble, begin to cure yourself to-day by the use of Dr. Williams' Pink Pills, which will assuredly do for you what they have done for others, if you give them a fair trial. Sold by all medicine dealers or by mail post paid at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Minard's Liniment Cures Colds, &c.

They were in the unique section of the art museum and were gazing at a mummy swathed in its cloth. Auto or aeroplane accident, evidently, one man remarked. Guess it's the former, returned his companion, for see, there's the auto number, and he pointed to a card reading B.C., 87.

A Classy List of Pies

The gentleman with a concave front and a large watch chain alighted from the train at a junction in a Western State and rapidly made his way to the dining room of the only hotel in the place.

What kind of pies have you here? he asked eagerly, of the kittenish old lady who stood at his elbow.

All four kinds, she replied, with an air of disdain.

What are they?
Open faced, cross bar, kivered up and the kind mother used to make, was the catalogue which she gave.

She Wasn't Interested

The newly married couple sat close together by the fire in the drawing-room. Her head was pillowed on his shoulder, and he was in a state of sentimental ecstasy.

I have just been reading a book, he said, the sincerity and beauty of which are ennobling. It is a work of love—so uplifting, so beautifully inspiring, so pure!

She looked at him with a far-away expression in her eyes. To him she seemed to be pondering every word and he was charmed. Then with a painful shock he was disillusioned. George, she exclaimed, shall we have the beef for dinner today cold, or shall I hash it?

DIVER AND SHARK

Ferocious Monster of the Deep Driven by a Steel Timber Hook

An exciting story of a diver's fight with a shark, thirty feet below the surface of the waves comes from Western Australia.

Diver Alf. Swanston was in the water near the Bembury jetty catching hold of sleepers and pieces of scantling with his steel timber hook dragging them through the two-foot deep black ooze, and carefully stacking the salvage so that the heap would not come apart, when he saw through the haze a seven-foot scaly monster lying in the direction, lifting the forty-pound iron-shod boots as if they were tennis shoes. Suddenly his foot came down on something, that moved. "A shark," he supposed, was his remark, as he moved towards the sleeper.

Suddenly something struck hard against his chest. The diver bent slightly and saw a pair of angry eyes set at the side of a shovel-shaped snout. It was a "tiger" or "ground" shark, that he had disturbed there, thirty feet below the lapping waves. A quick thrust with the timber hook and the shark was gone.

Swanston, unmoved by the incident, hooked the sleeper, and turned to drag it to the pier by, when the shark's snout again struck him, nearly upsetting his balance. Another blow from the hook sent the monster of the deep angry at being disturbed from his afternoon siesta, flying away from the encroaching human.

"That's settled the cripple," said the man in the helmet; and up above the attendant heard the remark, and wondered who the cripple was. But it hadn't! The "tiger" shark had evidently learnt, through two experience that he was not pursuing the best mode of attack. A few seconds' interval, and then the diver felt a pain in his leg, followed by a feeling that water was coming into his diving suit freely.

"I'm attacked by a shark, and he's torn my suit, and let the water in," was the shout that went flying up the thin wire to the attendant on top. Quickly the man in the launch hauled up his mate from down below, and soon the helmet emerged, and Diver Swanston stepped from the ladder into the boat.

Upon examination it was found that the leg of the india-rubber trouser worn by the diver had been badly lacerated, and if he had stayed below much longer the water coming in would have suffocated him.

DEVELOPMENT GOES ON

Industrial and Agricultural Activities March Hand in Hand

There are no other seven millions of people in the world today who make half as many kinds of goods as the Canadian people make. There are no other seven millions of people in the world who make those goods as well. We have 20,000 factories in Canada to-day, 500,000 pairs of hands, with an output valued already at one billion dollars. Perhaps the most remarkable feature about our manufacturing industries within the past few years is the fact that they are spreading of every province of the Dominion. Ten years ago there were 21 factories in the City of Winnipeg; to-day there are 245 factories in that city, with a monthly pay-roll of \$750,000 and with an output valued in 1911 at \$36,000,000. And what has been done in Winnipeg will be done, in a smaller way at first, but in a growing measure, at Regina, Saskatoon, Battleford, Edmonton, Calgary and many other important points in the West. And so, this development goes on, these two giant industries hand in hand, the soil giving up its wealth to the people, the industries providing industrial opportunities for our farmers' sons.

McClary's

S by W. G. Liesemer

HAS FIRST PLACE

No Country, all Points Considered, as Attractive as Canada

To accomplish solid and on growth, agriculture and industry must move forward together. At the present time Canada bulks bigger in the public eye than any other country. Free land or cheap land is pretty well exhausted in the United States, and South America makes it appeal for settlers chiefly to the people of Southern Europe. Canada, on the contrary, has millions of acres of free land and other millions of acres of cheap land, its form of government while making the strongest appeal perhaps, to the Anglo-Saxon, is yet attractive to men of all nations. The incomparable summer weather and the cold, bracing winters of Canada, attract and hold the strong individual and, all points considered, Canada has first place among the countries of the world as a place in which new people may settle and make for themselves a home and business success proportionate to their ability, capacity for work and capital invested. The wealth of Canada's partially developed resources is practically incalculable. Probably no other of Canada's natural resources exceeds, or will exceed its agricultural possibilities. The development of Canada's agricultural resources depends upon the carrying out of an aggressive and scientific immigration policy, while the development of other natural resources will depend largely upon a policy for the tariff commission to adopt that will have a tendency of assuring capital that its investment in establishing manufacturing plants will be safeguarded.

OF HIGHER STANDARD

Canadian Implements Better Than Those of French Make

It has been stated recently that France offers a good market for Canadian manufacturers of agricultural machines and tools of various kinds, because the articles of this nature used in France are below the standard of those produced in this country. In agricultural machinery Canada has to compete principally with the United States, which enjoys the same tariff, \$1.05 per thousand pounds on machines weighing 400 kilograms or more, and \$1.32 on all other machines. France imported agricultural machinery in 1910 as follows: from the United States, to the value of 29,088,020 francs; from Great Britain, 4,945,850 francs; from Canada, 4,750,900 francs; and from Germany, 4,677,500 francs.

The general French tariff is \$1.2 and \$2.02, respectively. In the sale of tools Germany monopolizes the French market. German imported tools in 1910 were valued at 1,644,800 francs, while the total value of all the tools brought into France that year was only 2,886,250 francs. The United States sold France 438,940 francs' worth of tools and Great Britain stood third on the selling list, with a total of 378,210 francs. Canada has no tariff advantage over the United States with France in the tool trade, and will have to fight vigorously for that part of the French market which is controlled by Germany.

Widen Their Jaws

Fifty New York schoolchildren are, says the "Express," to have their jaws widened to improve their mental development. The doctor who recommended the treatment contends that a small lower jaw means small brain capacity.

(Continued.)

If I lived here, Lillas remarked, looking round her with a happy little silver. I should see several ghosts a day. The very air to me is thick with them.

Tell me just what you mean by that, Lady Anne said, frowning a little.

It's difficult to put into words, Lillas returned. But I have always had the uncanny gift of seeing or at least thinking I see, things. Whenever I have entered a haunted house I seem able to track the ghost. It's a faculty that goes with my green eyes, I have been told. But it makes me very nervous and uncomfortable.

And what do you see here?

Lillas laughed, but she looked a little embarrassed.

Oh, nothing yet! she answered. But there's a feeling in the air that there are unseen eyes and silent voices about, and that one can never be sure of being quite alone.

Harry was struck by her words, which expressed an idea he had had ever since he arrived at Crayborne.

The evening was a delightful one to him. To sit in the drawing-room after dinner, and to listen while Lillas, who was an admirable musician and had inherited her father's gift of song, softly tried over old ballads and classical music at the piano, while he watched Lady Anne drawing the needle in and out of an embroidery frame on a table at her side, was so enchanting an experience that he found it hard to tear himself away at eleven o'clock, an unearthly hour for Crayborne.

Lady Anne walked to the door with him. The thunder was still muttering afar off at intervals, but after a storm of rain the air of the starlit night was fresh and sweet.

I have had such a happy evening, the young man said, as he lingered in the porch.

I have been very glad to have you here, she said simply. I want a friend.

He felt emboldened to kiss her hand, but she drew it away and shook her head.

After he had left she remained looking after him, and once or twice she sighed deeply.

Sleep seemed a long way off.

She wandered out into the rose garden and along the water paths, thinking deeply. The night was very warm, but as she looked down into the still water she shivered.

It was nearly midnight when she turned her steps towards the house. She was passing by the side of the chapel ruins, when a sharp cry struck upon her ears.

It came from the interior of the chapel, and the voice was that of a woman in dire distress and fear.

Let me go! she screamed. Who are you? Let me go.

MRS. G. A. SELBY AND CHILD

Uses Only Cuticura Soap for Prize Baby

"I have always used Cuticura Soap and no other for my baby, and he has never had a sore of any kind. He does not even chafe as most babies do. I feel that it is all owing to Cuticura Soap for he is fine and healthy, and when five months old won a prize in a baby contest. It makes my heart ache to go into so many homes and see a sweet faced baby with the whole top of its head a solid mass of scurf, caused by the use of poor soap. I always recommend Cuticura, and nine times out of ten the next time I see the mother she says 'Oh! I am so glad you told me of Cuticura.'" (Signed) Mrs. G. A. Selby, Redondo Beach, Calif.

Although Cuticura Soap is sold by druggists and dealers everywhere, a postal to "Cuticura," Dept. C.M., Boston, U.S.A., will secure a liberal sample, with 32-p. book on the care of skin, scalp & hair.

CHAPTER XXXVI

The White Monk

For the space of a few seconds Lady Anne stood perfectly still, pressing both her hands against her heart which beat tumultuously.

Yet it was not fear which possessed her. Physical fear was a thing she knew not; it was rather the dread of another ordeal on this day of suffering which might torture her mind and heart.

Her hesitation was, however, brief. She set her face sternly, and with a swift movement forward she skirted the wall of the chapel, and sprang down the three steps of the entrance.

A ray of moonlight fell on the empty tombs. In the heavy shadows beyond she could see two struggling figures, a man and a woman.

It was easy enough to recognize Lillas Morgan in the small figure in white, who was making frenzied efforts to be free from the man's detaining grasp; but a spasm of horror contracted Lady Anne's heart as she saw that the girl's assailant was dressed in the clerical habit of white, with a black scapulary on the shoulders, and wore a cowl drawn over his head.

His back was towards her as she halted near the entrance. But Lillas, perceiving her, uttered a cry of relief.

Lady Anne! she called out loudly. Lady Anne, help me!

At the words she was free. Even before she darted forward to meet Lady Anne the monk had released her and vanished, so that when, clinging nervously to the older woman, and sobbing hysterically, she turned to point him out, there was no sign of him anywhere.

Lady Anne made no attempt to follow or track him. Putting her arm round the girl, she drew her towards the house and it was not until she had led Lillas to her room that she asked any questions.

Lillas's long dark hair had been disarranged in her struggle, and covered her arms and shoulders. Out of it her small, delicate featured face looked the prescient of nervous terror.

Would you rather go to bed at once and not tell me anything until the morning? Lady Anne asked. Or would it relieve you to talk about it now? And shall I stay, or get Lillas to brush your hair and put you to bed?

She spoke kindly, but there was an undertone of impatience in her voice which Lillas was too much agitated to remark.

Do stay, Lady Anne, she pleaded. You are so quiet and brave that it soothes me only to have you near. I have been so horribly frightened!

But why were you not in bed long ago? You seemed so tired when you went to your room, after Mr. Clavelworth left us.

So I was, Lillas admitted. And yet I felt too much excited to sleep. I sat at the open window and thought of all that had happened today—of Lady Clavel's strange appearance, and our talk at dinner about ghosts, until I became so restless I had to creep out to the ruins. It was as though something called me there. I stole into the chapel, and stood by the Abbots' tombs. I really half believed I should conjure up some spirit from them as I lingered. And then a most ghastly thing happened!

She stopped short, trembling so violently at the mere memory of the shock she had received, that she could not speak. Lady Anne waited, her face growing strangely cold and hard, until the girl was sufficiently collected to resume her story.

Suddenly, Lillas continued after a pause of a few seconds, I thought I saw something white rising slowly out of a tomb in a dark corner of the chapel. I watched it, spell-bound with terror, not daring to move or speak. It rose higher, and I saw it was the figure of a monk in a white habit. You will think me a superstitious idiot, but in that place at midnight I never supposed for a moment it could be a living man. The thing began to move slowly towards me with bent head. And as it approached, in the midst of my terror I fancied—

She stopped short, and blushed deeply.

Minard's Liniment Cures Garget in Cows

How Oft?

How oft an orator must go Before the heedless throng And sprain his vocal cords to show His mind is clear and strong? How oft in bandshakes must he twist His muscles till they start And prove by toughness of the wrist His tenderness of heart!

Countless have been the cures worked by Holloway's Corn Cure. It has a power of its own not found in other preparations.

Mr. NEWLYWED said—"Hello! Is this a new kind of salt we are using? It shakes all right, doesn't it?"

Mrs. NEWLYWED said—"Yes, it's WINDSOR SALT. The grocer told me about it—said it was the only kind his customers would have."

Mr. NEWLYWED said—"Well, if he keeps such good salt, I guess everything else in his store must be good, so I would do all my trading there, if I were you."

Mrs. NEWLYWED said—"I intend to." 59

It's the CLEANEST, SIMPLEST, and BEST HOME DYE, one can buy—Why you don't even have to know what KIND of Cloth your Goods are made of—So Mistakes are impossible. Send for Free Color Card, Story Booklet, and Booklet giving results of Dyeing over other colors. The JOHNSON-RICHARDSON CO., Limited, Montreal, Canada.

Let 'E Be Hushed

Things political are moving so fast that some of the old wheel horses are having hard work to keep from being run over.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed for ever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

Jugal Ratio

You buy a pint of chestnuts All toothsome from the wood, if fates are kind perhaps you find That two or three are good.

Sores Heal Quickly.—Have you a persistent sore that refuses to heal? Then try Dr. Thomas' Electric Oil in the dressing. It will stop sloughing, carry away the proud flesh, draw out the pus and prepare a clean way for the new skin. It is the recognized healer among oils and myriads of people can certify that it healed where other oils failed utterly.

Snappers up of unconsidered trifles are wanted off the three new volcanic islands recently thrown up sixty miles southwest of Robinson Crusoe's old home.

Minard's Liniment Cures Distemper

Father—Do you know what happens to Hars when they die? Johnny—Yes, sir; they lie still.

CLEAN HANDS

15c a Tin. Don't let them fool you with a cheap imitation. SNAIL is the ORIGINAL and BEST HAND SOAP. Will remove grease and stains of all kinds.

To submit to a headache is to waste energy, time and comfort. To stop it at once simply take

Grain Commission Merchants. Winnipeg, Manitoba. Make Hills Landing read: Port Arthur or Fort William. Notify Peter Jansen Co., Winnipeg. Liberal Advances. Prompt Returns. Best Grades.

More About
The Loading Platform

The present generation of Western farmers will never know the difficulties and vexations experienced by their predecessors in the earlier years when no one could get a carload of grain shipped in bulk except by loading it through an elevator. The system forced the majority of farmers to sell their grain to the elevator owners at arbitrary prices, and oft times to submit to heavy dockage and other annoyances, causing continual dissatisfaction. Now, however, the distribution of cars as fixed by the Grain Act, and the use of the loading platform, provide facilities which enable the farmer to secure satisfactory treatment in the disposal of his grain, and the highest market prices at time of sale. Every farmer therefore, should more and more endeavor to use the loading platform in shipping his grain to the terminal elevators. It is the safeguard of the farmers' freedom in disposing of his grain to the best advantage for himself. If farmers refrain from using the loading platform freely, it might result in its being done away with, because railway companies and elevator owners are strongly opposed to it. It is easy to understand why elevator people desire the loading platform abolished. The railway people on their part say it delays the loading of cars and helps to cause car shortages. This we know to be nonsense, because frequently after cars are loaded, whether with grain, coal, lumber, or other merchandise, they are sidetracked for days and even weeks instead of being promptly moved forward to destination. It is engine shortage and shortage of competent train men that mostly causes grain blockades on railways and not lack of cars. Let every farmer therefore, do all he can to use the loading platform and become an independent shipper. In subsequent advertisements we will state in detail the savings and other advantages of direct loading into cars compared with loading through elevators.

We handle the farmers' grain strictly on commission, make liberal advances on car bills of lading, supervise the grading at time cars are inspected, secure the highest prices at time of sale and make prompt return when sold. Write us for shipping instructions and market information.

WINCHESTER

MODEL 1912 20 GAUGE TAKE-DOWN
Hammerless Repeating Shotgun

The lightest, strongest and handsomest repeating shotgun made. It weighs only 5 1/2 pounds, yet, all metal parts being made throughout of Nickel Steel, it has wonderful strength. In grace of outline and refinement of detail and finish, it is unapproached by repeating guns of other makes. It is exceedingly simple to load, unload and take down, and shoots with the strength and accuracy for which Winchester guns are noted.

Ask your dealer to show you one, or send to Winchester Repeating Arms Co., New Haven, Conn., for handsome, illustrated circular describing it.

A 20 GAUGE GUN FROM BUTT TO MUZZLE.

How Careless

Jimmie Britt, not the pugilist, but the circus man, tells a story illustrating how soft-hearted and sympathetic some of the ringmasters are when the acrobats get hurt. The heroine of the story was a girl who did the four-horse act, the six-horse act, the trapeze, and the flying bar, for all of which she received the princely remuneration of forty dollars a week.

One day she fell forty feet from the trapeze and landing precipitately and ill-advisedly on her left wrist, broke the bone near the elbow. The ringmaster ran up and sympathized as follows, with certain profane remarks which are here excluded:

What in thunder do you mean by falling out of that trapeze? I'm a son of a gun if some of your ginks don't try to put a crimp into this show every time we lift the tent!

Another fellow's sister always seems nicer to a young man than his own, until after he marries her.

Bad Blood

Is the direct and inevitable result of irregular or constipated bowels and clogged-up kidneys and skin. The undigested food and other waste matter which is allowed to accumulate poisons the blood and the whole system. Dr. Morse's Indian Root Pills act directly on the bowels, regulating them—on the kidneys, giving them ease and strength to properly filter the blood—and on the skin, opening up the pores. For pure blood and good health take

Dr. Morse's "Indian Root Pills"

POWERS ARE NERVOUS

EUROPEAN SITUATION CREATES A NERVOUS TENSION

A Congratulatory Telegram is Sent by Czar of Russia to Serbia on Success of War—Taken as a Warning to Germany and Austria by the Triple Entente.

London.—In the present nervous tension resulting in the general European situation, extreme importance attaches to a telegram which the Czar of Russia sent to King Peter of Serbia congratulating him that the Serbian armies had been successful in Macedonia without the need of invoking assistance from the outside. No information has come as to the effect which this telegram, which was only made public at a late hour, has created in Vienna, but it may reasonably be surmised that it will be regarded as a most unpleasant and alarming demonstration. One has only to remember that but for German threats Russia would have mobilized against Austria when the latter executed her Bosnia Herzegovina coup.

Serbia's territorial ambitions, now almost openly avowed are chief danger points in the relation of the great powers. Austria will not tolerate a change in the status quo; Russia, by the Czar's telegram congratulating the Serbians, practically approves and commends them.

A Vienna dispatch to the Daily Mail clearly states the Austrian position. The overwhelming success of the Bulgarian and Serbian armies is not regarded as sufficient warrant for modifying the determination of Austria to maintain the status quo. Should it become evident, however, that the status quo can no longer be upheld, everything will depend on the attitude of Serbia toward her Austria-Hungarian neighbor. This statement was furnished the correspondent on unimpeachable authority regarding the attitude of the dual monarchy toward her new situation created by the collapse of the Turkish army.

A message from Berlin says that while the German government has, of course, been very careful to refrain from any official provocative utterance concerning the Balkan situation, individually German artillery men snifed openly, at the suggestion in London despatches that no better combination of circumstances could arise in favor of the triple entente of England, France and Russia to embark in a war with Germany at a moment when Austria would not be able to offer Germany any assistance.

The situation was exactly the same a few years ago, it was pointed out when Austria seized the provinces of Bosnia and Herzegovina from Turkey. Russia threatened to interfere, and Germany was expected to come to Austria's assistance. England and France intimated that if Germany undertook to act, they would attack the Fatherland. Germany did mass troops on the Russian frontier and warn the Czar against intervention, whereupon England and France quickly subsided, and the Czar deserted by his allies, was compelled to hold his hand. This, said the Teutonic authorities, is what undoubtedly will happen again if the same situation arises, despite the Czar's telegram of congratulation to King Peter of Serbia on his Balkan victories. It was agreed that the Nicholas message possibly was intended as a warning to Austria to keep out, but the Germans did not regard it as a warning which need cause them serious alarm.

CHOLERA DESTROYING HOGS

Objecting to Killing One Animal When It Sickness, Farmers Lose Heavily

Moose Jaw.—An outbreak of hog cholera would appear to have broken out in the province, especially in this district. Although it has been given other names, it seems certain that in many parts "the sickness which has ravaged" the herds, is none other than the devastating cholera itself. The authorities at Regina have been informed from several places. An inspector has been sent out but before his arrival in the affected territory, it has been too late to do anything. It seems that the farmers have grudgingly killed sickened animals with the result that whole herds have died off.

It is reported that some cases have been located in Saskatchewan and many other places, but that the farmers refuse to admit that the mortality is due to cholera. Word has been received here, however that where the disease has been most prevalent it has been successfully diagnosed as hog cholera by the authorities.

May be Another Strike

Calgary.—That a strike of mine workers in the Crow's Nest district would result unless the operators and employees settled their differences over yardage pay shortly was the opinion expressed by Clom Stubbs, president of the district 18, United Mine Workers of America. The miners have made several ineffectual attempts to have the differences submitted to a board of arbitration. The Crow's Nest pass coal companies is the company involved and a strike would directly affect 2,000 miners in the district.

Pensioner for 50 Years

London.—Sergeant Henry Barnes, a Crimean veteran, who died at New Ferry, Cheshire, drew a pension for nearly fifty years. After Balaklava he was nursed by Florence Nightingale.

BLAMED FOREIGNERS

For Large Increase in the Canadian Drink Bill

Renfrew, Ont.—It is the people who come to us from all the nations of the earth that we blame for a large part of the increase of our annual drink bill in spite of our local option victory; also for the menace of the slum problem in our cities.

This extract from the annual address of the provincial president of the W.C.T.U., Mrs. E. A. Stevens, Toronto, was the dominant note in the proceedings this afternoon at the convention in session here. Mrs. Stevens dwelt at length on the import and consumption of spirits in Canada, the local option victories won in the province and the canteen question.

Col. The Hon. Sam Hughes received a considerable modicum of praise in the president's address for his action in regard to the abolishing of the canteen system.

Getting Little Real News

London.—The newspapers of England, which have a brigade of special correspondents as near the front as the rival army commanders will allow them to go, are angry over their poor showing, considering the immense expense. They find themselves paying for long dispatches containing state information and dramatic descriptions of places which the armies occupied the week before.

Punch hits the nail on the head by publishing a cartoon with the caption "The Freedom of the Press," and shows a war correspondent blindfolded and mounted on a blindfolded, hobbled horse. Two Balkan soldiers with fixed bayonets stand on each side of him while he is trying to write despatches.

The bystander holds that the day of the war correspondent is over, saying:

Commanding generals have learned the lesson, taught by the South African war and the Manchurian war, that the war correspondent is a menace to successful strategy.

Taking Intervention

Rome.—A diplomatic representative of one of the Balkan states, a man noted for his statesmanlike qualities, was asked by a correspondent whether he thought intervention by the powers is at hand, and what welcome the intervention is likely to receive from the allies.

The chancelleries of Europe have been discussing that question for the last two months, he replied, but I don't think they are likely to come to an agreement before the Bulgarian army is under the walls of Constantinople. The Bulgarians will not enter Constantinople. The allies do not wish to add to the questions arising out of the war the very difficult problem of the Khalifate and the Dardanelles. If when this point is reached European offers mediation we shall beg her to allow us to settle with the Turk alone.

The children of the Berlin treaty have grown up and won by their blood the right to dispense with parental guidance. They know how to be discreet. If the powers really want to put an end to the war, they have only to compel the Port to proclaim autonomy for Macedonia.

TELEGRAPHS IN THE NORTH

Government Line to Port McMurray Progressing

Edmonton.—More than seventy-five miles of right of way of the Dominion Government telegraph line from Athabasca Landing to Port McMurray, a distance of 240 miles, have been cleared during the present fall under the direction of C. D. Currier, chief engineer, and J. F. Bennett, assistant who came into the city from the north. The line will be completed and in operation in about fourteen months.

C. P. R. HAS BIG INCOME

Gross Earnings in Nine Months Were \$36,000,000

Winnipeg.—C.P.R. gross earnings in September were eleven and a half million dollars. Working expenses were seven and a third and net profits four and a quarter millions. Past nine months' gross earnings were thirty-six millions; working expenses twenty-two and a half millions, and net profits thirteen and a half millions.

Canvass of Volunteers in Vancouver

Vancouver.—In view of the possibility of a conflict in Europe, members of the volunteer militia in Vancouver during the last few days have been quietly approached with a view to ascertaining whether or not they are ready to go out to fight. The canvass of the men has been carried out in the quietest manner possible, much in the same manner it was done before the calling of the colonial forces together at the time of the Boer war.

Bob Service Off to Balkans

Toronto.—Robert W. Service, author of "Songs of the Soudan," and other poems and stories of the Yukon and the west, is off to the Balkans in the hope of seeing some of the fighting between Turkey and the Balkan States. He will leave New York on Friday.

Antwerp.—The body of a traveler in diamonds named Provo, who disappeared a few weeks ago while carrying gems worth a very large sum, has been found buried in a park near Antwerp. The owner of the park, a man named Vergout, who is prominent in sporting circles, has been arrested.

TO SHIP GRAIN SOUTH

ANOTHER OUTLET FOR THE REMOVAL OF CROP

It is Expected that the New Channel will Greatly Relieve the Congestion at the Terminal Elevators—Grain to be Shipped to Minneapolis Mills.

Moose Jaw.—Starting on November 8, grain will be shipped to Minneapolis and St. Paul at the same rate that it is now shipped to Fort William and Port Arthur.

This concession means much to Southern Saskatchewan, for grain will be shipped to the Minneapolis mills from here and from points east of here in large quantities. In short, this concession on the part of the C.P.R. will probably drain southern Saskatchewan and Alberta of its wheat, for navigation on the great lakes will soon be at an end, and then this will be a second outlet for the crop of the Canadian northwest.

Millions of bushels of grain, which otherwise would be shipped east to Fort William and stored there for the winter, will be sent south, and the terminal elevators will have a better opportunity to accommodate all the grain sent there which is too late for shipment east.

The car congestion is already serious in the southern portion of this province and in Alberta.

The C.P.R. has also announced a reduction of 15 per cent. in settlers' rates from the Pacific Coast states. This has been done with a view to obtaining more immigrants for Western Canada from the settlers resident on the Pacific slope south of the boundary.

Polish Feeling Awakens

London.—A despatch to the Daily Mail says:

For the first time since Napoleon's invasion of Russia a hundred years ago the White Eagle of Poland is raising its head and looking to the threatened conflict between Austria and Russia to free the Polish nation from the hated Russian yoke.

While the eyes of Europe are riveted on the battlefields of Thrace and Macedonia, a great national movement is spreading in Poland. It seems to unite all the Poles in common action for the possible outbreak of hostilities between Russia and Austria. The Polish nation numbers twenty-five million, of whom twelve million are Russian subjects, and over six million Austrian subjects. There are two million Poles in America.

The information upon which the correspondent bases the foregoing is somewhat slim, but to the effect that meetings are taking place all over Galicia with a view to removing the political differences existing between the different parties in Poland and between the Poles and Russians.

SUFFRAGETTE IS FREED

Miss Gladys Evans Has Had Punishment Enough, Holds Magistrate

Dublin.—Miss Gladys Evans, the militant suffragette, who was rearrested October 23 for failing to report to the police, was discharged, the magistrate holding that the six days she had remained in jail was sufficient punishment.

Miss Evans who was sentenced August 7 to five years in prison for incendiarism, is out on license. After her release again today she declared that no matter how often she was arrested and punished she would not report herself to the police.

NEW SUFFRAGETTE PHASE

Australian Women Resist Law Against Long Hattins

Sydney, N.S.W.—For wearing hatts that protruded too far, most of them prominent in society, four women were convicted and fined today in a Sydney court. They went to jail rather than pay their fines, declaring they would not submit to iniquitous and unnecessary legislation.

The city authorities face a situation similar to that growing out of the suffragette demonstrations in England, as the women assert that if further arrests and imprisonment are ordered because of the hatty ordinance they will declare a hunger strike in jail.

Coal Fields in North

Vancouver.—Malloch of the Dominion geological survey, Ottawa, who has just returned from the Ground Hog basin, a new coal field in the north, says:

The field is hardly so extensive as at first supposed and is somewhat cut by faulting. There promises, however to be an enormous tonnage, available for mining if the coal can be described as an anthracite, picked samples running at 35 to 85 per cent in fixed carbon. One Vancouver company which is doing quite a lot of development will keep a party of workmen there during the winter.

Heroism Honored

London.—The king has awarded the Edward medal (second-class) to Ernest Thackeray, who entered a man hole in a blast furnace at Scunthorpe, to rescue a fellow workman named Lightowler, who was overcome by gas. Lightowler was dead when he was taken from the manhole, and Thackeray was unconscious till the next day.

Berlin.—A four-story hotel for horses provided with the latest modern requirements, has been constructed by the sanitary department of the city of Charlottenburg, Germany. The hotel accommodates 2000 horses.

IMMIGRATION TO AUSTRALIA

In Seven Months 95,592 Went to Colony But in Same Time 45,623 Left

Ottawa.—According to official reports received here the Australian commonwealth during the first seven months of this year received 95,592 immigrants, while no less than 45,623 left the colony, thus showing a net gain in the immigration of only 49,969 during the period stated. Of the total arrivals 83,640 were British, the balance being composed of Germans, Italians, Russians, Greeks, Danes and a limited number of Asiatics and colored people. The activity of some of the Australian states in sending capable officers to Great Britain and the extensive circulation of the immigration literature, are in the main, responsible for the increased figures. All the third class accommodations on the principal lines of steamers leaving London for the Australian ports have been booked for several months ahead.

It is estimated that the present year will constitute a record as regards the number of immigrants landing in the commonwealth.

WILL KNOW EXACT TIME

In Europe and America When Wireless is Established

Paris.—The exact time at a given moment, in America and Europe, will be established shortly by wireless telegraphy. About the middle of November it will be possible for the first time to establish with precision the longitudes of America and Europe in their relation to each other by the exchange of wireless signals between the great station at Arlington, Va., and the Eiffel Tower in Paris and other European stations.

Commander Hough at the International Time Conference here declared that the observatory in Washington was now distributing the time with errors of only one-thousandth part of a second. Hitherto European and American time has been distributed by cable, allowances being made for loss of time in transmission, and the time has been re-adjusted only three times—in 1886, 1870, and 1872.

Calgary Seeks More Lines

Calgary.—Strong effort to induce the C.P.R. to construct a number of extensions which will in effect form a railway belt of the territory contiguous to Calgary, will be made by the Calgary board of trade. Following are the extensions and branch lines which the board will strive to have the C.P.R. build:

A branch from a point at, or near Calgary to a point at, or near, Cowley and then south-easterly.

A branch from point at, or near Blackie, to a point on the Aldersyde-Lethbridge line, to a point on the Suffield-Kipp line, at or near township 12, range 15 west of the fourth meridian.

The extension of the Suffield-Kipp line in a north-easterly direction to a point near the mouth of Red Deer River to connect with the Swift Current-Bassano line.

DRINKING CUP ABOLISHED

From Every Railway and Vessel in the United States

Washington, D.C.—Secretary of the Treasury MacVeagh with one swoop has abolished the time honored public drinking cup from railroad cars, vessels and other conveyances operated in interstate traffic, and from depots and waiting rooms of common carriers. This sweeping order against any drinking cup, glass, or vessel for common use, effective immediately, is in the interest of the nation's health and is a direct result of an investigation by the United States public health service, a branch of the Treasury Department, which holds the drinking cup to be a menace as a carrier of disease. A drinking cup, it is said may contain thousands of bacteria from disease-infected persons.

Getting Rich Through Mails

Ottawa.—Postmaster General Hitchcock, of the United States and Hon. L. P. Pelletier are uniting in a crusade against mail order sharks who are using the mails of both countries for fraudulent purposes. Get rich quick men are according to the post office authorities, increasing in Canada at a disturbing rate, many of those who have been driven out of New York, Chicago and other American cities, having turned their attention to Canada as a particularly rich territory for their line of endeavor. The matter has been taken up jointly by the heads of the post offices of the two countries, the American authorities are gladly co-operating in the effort to protect citizens of the Dominion from these fraudulent concerns.

Railway Board Coming West

Ottawa.—The first autumn Western sittings, the Railway Commission has held within recent years will commence at Winnipeg November 11. The Board will also include in its itinerary Lethbridge, Regina, Moose Jaw, Saskatoon, Calgary, Le Pas, Edmonton, Nelson, Vancouver and Victoria. A sitting will be held in Fort William on the 8th.

Calgary Gets Valuable Collection

London, Ont.—The city of Calgary is to be the recipient of James Turner's famous collection of naturalist specimens. J. L. Moody of that city having purchased from the London owners for the Calgary museum. The specimens of birds, animals and curiosities have been collected for the last half century.

THE SUNDAY SCHOOL

LESSON VI.—FOURTH QUARTER, FOR NOV. 10, 1912.

Text of the Lesson, Hos. vii.—Memory Verses, 2—Golden Text, Isa. v. 11 (R.V.)—Commentary Prepared by Rev. D. M. Clemons.

I am in doubt about this chapter being the one assigned for the world's temperance Sunday, but it is the one on the printed slip of lessons for this year, and we will find a profitable study by taking some statements from the whole book, which we must consider in order to understand this chapter.

There being no memory verse, I have suggested verse 2, because our great failure as well as theirs is that we do not consider Isa. 1, 3; v. 12; xlv. 19; Mark vi, 52. As to our own doings, they are the great hindrance and keep so many from turning to God (Hos. v. 4 and margin). As to the king, made glad by lies and wickedness, joining hands with scorners and giving himself bottles of wine (verses 3-7). Amaz would fill the bill perfectly (II Chron. xxviii, 1-4, 19). Pride, drunkenness, rebellion against God, giving strength to strangers and unclean but manifest physical failure (verses 9, 10, 13, 14) are some characteristics of the drunkard set forth in these verses.

In verses 11, 16, we see reliance upon human help instead of upon God, and we are reminded of the many cures for drunkenness tried in homes for inebriates, when there is only One that can really deliver. He is always ready to have mercy and may be heard saying to the drunkard and to every sinner, "Thou hast destroyed thyself, but in Me is thine help" (vi. 6; xlii, 9). Israel, here called Ephraim, is spoken of in many ways and by many figures regarding their turning away from the Lord, and these words are true also of all sinners. "Destroyed for lack of knowledge, forgotten the law of God, left off to take heed to the Lord, have sown the wind and shall reap the whirlwind, have plowed wickedness and shall reap iniquity" (iv. 6, 10; vii, 7; x. 13). The cry of the Lord to the wandering ones to return to Him is heard in such words as these: "Return unto the Lord thy God, for thou hast fallen by thine iniquity. Take with you words and turn to the Lord. I will heal their backsliding; I will love them freely" (xlv. 1, 2, 4).

Two remarkable figures describing the professed people of God in their wanderings from Him are, "A cake not turned." "An empty vine bringing forth fruit unto himself" (vii, 8; x. 1), suggesting the life that is right outwardly, but wrong on the other side, and also the life which seeks only its own happiness. Drunkards, opium fiends and such like are of all people, apt to be the most selfish and unreasonable and rebellious, counting all others foolish and mad, joined to their idols, and desiring to be let alone (ix, 7; ix, 16). Yet for even such there is deliverance if they will only turn to the Lord. Prophecy has become to me a fascinating study since I began to receive it as a light shining in a dark place—the words of the Holy Spirit by holy men, that we might know what God is doing and is going to do, written for our learning that we through patience and comfort of the Scriptures might have hope (II Pet. 1, 19-21; Amos iii, 7; Rom. xv, 4); since I have also found that He, Jesus Christ Himself, and His people Israel are the center of all the prophecy and that everywhere His and their glorious future is predicted as bringing blessing to the whole world (Acts x. 43; Rev. xix, 10; Isa. lx. 1-3; xlii, 1-3). In all prophecy He tells Israel plainly their sins, rebukes them, pleads with them, chastens them, but always tells of a glorious future, when they shall see evil no more, after they shall have truly repented and received their Messiah.

We might not have thought that Hos. xl, 1, had any reference to Christ. "When Israel was a child, then I loved him, and called my Son out of Egypt; if we had not read it in Matt. ii, 15. But everywhere there are such plain or hidden references to Him. See His and their glorious resurrection in chapter vi, 2, 3; "After two days will He revive us, in the third day He will raise us up, and we shall live in His sight. His going forth is prepared as the morning."

In the revised version that last clause is "sure as the morning." Robertson translates it, "Like the dawn is His coming forth assured." And another translates it, "His coming is as certain as the dawn." It is perfectly in accordance with Heb. ii, 3; Heb. x, 37. "Though it tarry, wait for it, because it will surely come, it will not tarry." "For yet a little while, and He that shall come will come and will not tarry." In the context of these two and in two other places we have the four times repeated saying: "The just shall live by faith" (Heb. ii, 4; Rom. i, 17; Gal. iii, 11; Heb. x, 38). May we follow on diligently to know the Lord until we see Him face to face.

The words in Hos. xlii, 14; concerning death and the grave takes us to Isa. xlv. 8, 9, and on to I Cor. xv. 26, 54, 55; Rev. xxi, 4, when the last enemy, death, shall be destroyed and from such words as these I feel authorized to say that God hates death. What more important word could we have for our souls than Hos. xlii, 6: "Turn thou to thy God. Keep mercy and judgment and wait on thy God continually." The message is not Hosea's, but the word of the Lord by Hosea, who was contemporary with Isaiah (Hos. i, 1, 2).

"How Well He Dresses!"

That's one of the impressions you are sure to make, wherever you go, if you wear

Style-Craft

TAILORED CLOTHES

STYLE-CRAFT Clothes do not stop with being good clothes, honestly made from the best fabrics. To this necessary foundation they add that air of distinction and well-bred grace which mean so much in social and business life.

STYLE-CRAFT Suits and Overcoats will please YOU. Come in and examine them—the more carefully the better.

Reitzel & Kalbfleisch, DIDSBURY ALBERTA

FELS AS FARMER

The Noted Socialist Failed to Realize His Ambition in England

Joseph Fels, the well-known Socialist, intends abandoning his experimental small holdings at Mayland, near Althorne, Essex, England.

Altogether the experiment, including the cost of the land, involved an expenditure of nearly \$250,000. The estate of 700 acres was purchased by Mr. Fels and divided into 5 and 6 acre lots. On each of these a brick built house, with 5 rooms, bath, and offices, was erected, together with complete farm buildings.

Three acres in each holding were laid out with fruit, and the remainder prepared for general market gardening. About a third to a half of the original small holders remain, and these will be given an opportunity to purchase their holdings. The remainder of the property will be disposed of privately or sold by auction.

It is Mr. Fels' intention to devote the money received from the sale of the property to propaganda work on behalf of the single tax in Great Britain, North America and on the continent of Europe where funds for the purpose are already in existence.

"I am giving up the experiment," he said, "simply because I am convinced that under present conditions of the land question in England no experiment, either public or private, can assure the cultivator, whether large or small, shall get what belongs to him—the full result of his labor."

"I have come to a full realization of the hopelessness of trying to promote agriculture in a country, the land of which is monopolized by a few ground landlords, who are beginning to be called here, as in the United States, Canada, Denmark, Sweden, and other countries 'land hogs'."

"It was by no means a complete failure, for scores of men and women have been trained to country life, but it simply has not been a commercial success."

"Not being a farmer, I cannot say under present conditions how commercial success could be obtained. But I do know that if the present taxation upon labor, machinery, and buildings were lifted, as it will be, and placed upon land values, where it belongs, monopolists and other idle persons such as myself would not be looking round to play the philanthropic game, the benevolent wheeze, or the charity act to benefit the poor, but would be getting off their backs, and these people would be teaching themselves agriculture and other pursuits unaided by our alleged superior wisdom."

OUR PULPWOOD

Sufficient Cut Yearly to Keep One Hundred and Twenty Mills Going

Fifty-six per cent. of the pulpwood cut in Canada during the year 1911 was exported to the United States. This is the fact shown by statistics collected by the Forestry Branch of the Department of the Interior.

The total quantity of pulpwood cut in Canada during 1911 was 1,520,227 cords. The quantity exported amounted to 844,939 cords, while the remaining forty-four per cent. (672,288 cords) was manufactured in Canada. The value of this pulpwood was \$5,340,592 (an average of \$6.29 per cord.) Had the wood been retained in Canada and manufactured here, it is estimated that the value would have been increased to about \$15,000,000.

Had Canada manufactured into wood-pulp all the pulpwood she produced, she could have had enough to supply a hundred and twenty-two mills of the average size of those operating in Canada, instead of the fifty-four she now has. Quebec could have supplied sixty per cent. in re mills than she is now doing, and New Brunswick could have doubled the number of her mills.

Westcott News

Threshing is being rushed in this district, about 50 per cent. being completed. The fine weather of the last two or three weeks has been good for the farmers. Grain is turning out an average crop.

Oom John is acting as assistant chef on the chuck wagon for a threshing outfit.

Mr. and Mrs. Wm. Robertson and son, Miss Muriel Robertson and Mr. James Robertson, accompanied by two lady friends, all of Calgary, and Mr. and Mrs. A. A. McLeod were visiting with Mr. and Mrs. Alex Robertson on Thanksgiving Day. The men folks went out shooting and returned with a fairly good bag of game.

The many friends of Mrs. John Bellamy, who has been confined to the house through sickness, will be glad to hear that she is gradually recovering.

AUCTION SALE Of Dairy Cows

Having been favored with instructions from Duncan McNaughton of Maxwell, Ont., I will sell by public auction at the Alexandra Livery barn, Didsbury, at 2 o'clock on

Tuesday, Nov. 12

the following consisting of

38 HEAD CHOICE DAIRY COWS AND HEIFERS

3 Holstein cows, 2 years old, fresh; 3 Ayrshire cows, 6 years old, fresh; 20 Holstein cows, to freshen in January; 12 Ayrshire cows to freshen in January and first part of February.

Mr. McNaughton has given considerable attention to the selection of these two car loads of Dairy Cows and has succeeded in getting a very select herd which will be offered to the farmers and dairymen of the Didsbury and surrounding districts.

TERMS CASH—NO RESERVE

G. B. Sexsmith, Auctioneer

Mixed Farming Special

CONDUCTED BY THE

ALBERTA DEPARTMENT OF AGRICULTURE

Special Lectures and Demonstrations on all phases of farm life.

SUBJECTS:

LIVE STOCK—Judging, care, feeding, management.
FIELD HUSBANDRY—Farm crops, weeds and soil cultivation.

POULTRY—Housing, breeding, etc.
DAIRYING—In all its phases.
DOMESTIC SCIENCE.

This is a special train for the farmers of Alberta and will consist of nine cars, including two car loads of pure bred cattle, horses and sheep to be used for judging and demonstration purposes; one car of poultry and equipment and one car of dairy demonstration work.

Train School will be conducted in DIDSBURY

**Saturday Afternoon
NOVEMBER 9TH
from 2 until 5 o'clock**

Lectures in Hembling's Hall.

Stock Judging at Livery Stable.

Domestic Science Lecture
Everyone cordially invited.

FOR FURTHER INFORMATION ADDRESS:

HON. DUNCAN MARSHALL,
Minister of Agriculture.

C. E. LEWIS,
Supt. of Fairs and Institutes, Edmonton, Alta.

**A Continuous Ad. in
THE PIONEER will
bring results.**

"It is a pleasure to tell you that Chamberlain's Cough Remedy is the best cough medicine I ever used," writes Mrs. Hugh Campbell, of Lavonia, Ga. "I have used it with all my children and the results have been highly satisfactory." For sale by all dealers.

One of a loving couple (watching a pile driver at work)—"Dear, I feel so sorry for those poor men. They have been trying for the last half hour to lift that thing out, and every time they get it almost to the top, it falls back again."

TORTURED A CHILD

Inhuman Step-Mother Brutally Ill-treated Eight Year Old Girl

At Liverpool, Frances Shaw was charged with cruelty to her step-child, a pretty little girl of eight.

The prosecution stated that the girl was systematically beaten, generally ill-treated and burned in all parts of the body. The child got up at five o'clock every morning, did the house work and washed up after meals. On one occasion the mother sent her to prepare her bath, and when the child was undressed the woman, it was alleged, tied her hands behind her back and branded her with a red-hot poker from the base of the neck to her hips. That day the child ran away and was found asleep in a park. She was removed to a hospital shelter, where she slept practically the whole of the first two days.

The doctor who examined the child stated that her body was a mass of cuts, bruises and burns. Her left arm appeared to be fractured and there were indications that a handkerchief had been pulled out of her head. The woman was remanded until her sanity could be decided upon.

Chapped Hands AND Cold-Sores

Are your hands chapped, cracked or sore? Have you "cold cracks" which open and bleed when the skin is drawn tight? Have you a cold sore, frost bite, chilblains, or a "raw" place, which at times makes it agony for you to go about your household duties? If so, Zam-Buk will give you relief, and will heal the frost-damaged skin. Anoint the sore places at night, Zam-Buk's rich healing essences will sink into the wounds, and the smarting, and will heal quickly.

Mrs. Yellen, of Portland, says: "My hands were so sore and cracked that it was agony to put them near water. When I did so they would smart and burn as if I had scalded them. I seemed quite unable to get relief from anything I put on them until I tried Zam-Buk, and it succeeded when all else had failed. It closed the big cracks, gave me ease, soothed the inflammation, and in a very short time healed my hands."

Zam-Buk also cures chafing, rashes, winter eczema, piles, warts, festering sores, sore heads and backs, abscesses, pimples, ring-worm, etc., cuts, burns, bruises, scalds, sprains. Of all drug stores and stores, or post free from the Zam-Buk Co., Toronto. Price 50c a box.

W. N. U. 923

Excursions to Eastern Canada Via Canadian Northern Railway

Christmas fast approaches, bringing with it the thought of the folks back home and the wish to be with them once again, to share in their Yuletide celebrations. It may have been only last year since one returned, but still the magnetic influence of the old familiar hearth is making itself felt in a way that will not be suppressed.

Every Opportunity

Whether it be a trip to the East, South, or any other portion of the globe, every opportunity is at hand and open to all. As the weeks roll by new lines are being opened up all through the West. Settlers living in new towns, situated in outlying districts hitherto beyond the pale of railroad development, suddenly awake and find within their grasp the transportation facilities, for which in many instances, they have been awaiting for years. The golden opportunity has arrived.

Today the Canadian Northern announces its twenty-second annual reduced excursion rates to the East, tickets to be on sale from Dec. 1 to 31 and good for return for three months.

Extension privileges will be allowed at the end of this period if required, and stop-overs are permitted at most points en route. Besides the offering of extraordinary cheap rates, the Canadian Northern is able to add another inducement to the intending traveller in the way of a choice of routes. These are as follows: Through Winnipeg—through Port Arthur—by way of Duluth and Chicago—or lastly via St. Paul and Chicago. To the old seasoned travellers probably either of the routes through the United States will appear the most fascinating. To those intending to go this way, it may be interesting to know there is no trouble to be expected with the United States Customs, as baggage is sent through without examination.

The Canadian Northern is also offering a considerably lower rate to the Old Country and Europe, which will show a great difference between that and the ordinary fare. Tickets are good for five months' limit and will be on sale from Nov. 10.

The company has a great reputation for its dining car service, working on the plan of pay only for what one orders, and has recently received a number of new diners of the latest pattern. The Canadian Northern also announces very low excursion fares for the month of December to the Central States, to such points as Duluth, St. Paul, Chicago, Sioux City, Des Moines and Omaha, so that many lonely homesteading bachelors from the States will have the opportunity of spending Christmas and three months at home.

OBLIGED TO QUIT BUSINESS

SO DREADFUL WAS THE SUFFERING FROM ITCHING PILES

After Twenty Years of Pile Torture Relief and Cure Came With

DR. CHASE'S OINTMENT

You take no risk and you make no experiment when you use Dr. Chase's Ointment for piles. Many doctors still cling to the idea that nothing but an operation will effect a cure. But operations are expensive and dangerous, and often fail in their results. Some have been cured by Dr. Chase's Ointment after operations had failed.

Dr. Chase's Ointment truly has a wonderful record as a cure for piles and all itching skin diseases. Here is a case which was reported recently:

Mr. John P. Marshall, 14 Barnes road, St. John's, Nfld., writes:—"For upwards of twenty years I was troubled terribly with itching piles; at times so bad that I was obliged to lay up, unable to attend to business."

"I tried many treatments without benefit, until I accidentally read of Dr. Chase's Ointment, and found at last a cure by using this ointment. I only used one box and part of a second one when I was completely cured, and have had no return of the piles. That was eighteen months ago, and needless to say, I attribute this cure to Dr. Chase's Invaluable Ointment."

Many sufferers from piles have tried so many scores of treatments that they cannot believe that cure is possible. In order to convince the skeptical we are always willing to send a sample box free to anyone who encloses a two-cent stamp to pay postage.

Dr. Chase's Ointment, 60c. a box, at all dealers, or Edmondson, Bates & Co., Limited, Toronto.

Quex—Well, supposing she did throw you over because you lost your money—there are as good fish in the sea as ever came out of it.

Checks—I know, but that's small comfort for a fellow who has lost his bait.

Minard's Liniment Cures Diphtheria

Financially Foolish

First Official Member—What do you think of the new preacher we tried out yesterday?

Second Official Member—Won't do! We'd never lift the debt with him on the job. Why yesterday, when there were strangers present, he had them sing: 'I'm Glad Salvation's Free, while the collection was being made.'

Western Manufacture

Our west is bound to be a great manufacturing field. In the first place there is the certainty of an enormous consumptive demand of the very best class there. The population is increasing rapidly, the production of the land is also increasing, and the people have the means to sustain a large per capita demand for manufactured goods. In the second place the west has water power and coal, and its means of transportation enlarged so that raw material from any source can be delivered at the factories. When the Panama canal comes into use Canada's western market will be brought within the range of British manufacturers' competition, and as the manufacturers of the western states are always to be reckoned with there, Canadian manufacturers will require to be very alert to meet the conditions.

Worms in children, if they be not attended to, cause convulsions, and often death. Mother Graves' Worm Exterminator will protect the children from these distressing afflictions.

Ardent Suitor—I lay my fortune at your feet.

Fair Lady—Your fortune! I didn't know you had one.

Ardent Suitor—Well, it isn't much of a fortune, but it will look large beside those tiny feet.

Gall Stones Cured After 12 Years

A Winnipeg lady has been cured of gall-stones after suffering from that painful complaint for twelve years. She had taken many treatments and many remedies but each and all proved failures, until she took SANOL, the already well-known remedy for Gall-stones, Kidney-stones, Gravel, Kidney trouble, Lumbago and other diseases caused by uric acid in the system. It was a great victory for SANOL. So grateful was this lady that she sent a great number of her friends to us to be treated and in every one of these cases the results have been most satisfactory.

We are willing and anxious to supply the name of this well-known lady. We have also records of cures in every town and locality in Canada and we would be able to refer you to some of your neighbors for an opinion on SANOL.

This remedy is manufactured only by the SANOL MANUFACTURING COMPANY OF CANADA, LTD., 977 Main street, Winnipeg. For sale by most leading druggists or direct from the makers at \$1.50 per bottle.

EDUCATION PAYS

Look about you and see how trained brains win better salaries than trained muscles. We train young men and women to use their brains in business. They succeed. Why not you? We invite you to write for a copy of our curriculum if you want a good training for a business office or wish to become a competent telegraph operator. Write W. H. Shaw, President, Shaw's Schools, Toronto, Canada.

Dear Friends

Bell—That man over there is staring straight at my nose.

Nell—Probably he's a reporter.

Bell—And why should a reporter stare at my nose?

Nell—Reporters are supposed to keep their eyes on everything that turns up, aren't they?

"PROUD AND GLAD"

Because Mother Looked So Well After Quitting Tea and Coffee

A woman was almost distracted with dyspepsia and heart trouble. Like thousands of others, the drug—caffeine—in coffee was slowly but steadily undermining her nervous system and interfering with natural digestion of food. (Tea is just as injurious as coffee because it contains caffeine, the poisonous drug found in coffee.)

"For 30 years," she writes, "I have used coffee. Have always been sickly—had heart trouble and dyspepsia with ulcers in stomach and mouth so bad, sometimes, I was almost distracted and could hardly eat a thing for a week."

"I could not sleep for nervousness, and when I would lie down at night I'd belch up coffee and my heart would trouble me. It was like poison to me. I was thin—only weighed 125 lbs., when I quit coffee and began to use Postum."

"From the first day that belching and burning in my stomach stopped. I could sleep as soundly as anyone and after the first month, whenever I met any friends they would ask me what was making me so fleshy and looking so well."

"Sometimes, before I could answer quick enough, one of the children or my husband would say, 'Why, that is what Postum is doing for her!'—they were all so proud and glad."

"When I recommend it to anyone I always tell them to follow directions in making Postum, as it is not good to taste if weak, but fine when it has the flavor and rich brown color." Name given by Canadian Postum Co., Windsor, Ont.

Read the little book, "The Road to Wellville," in pkgs. "There's a reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

THE STANDARD ARTICLE USED EVERYWHERE

THE KIND THAT PLEASES THE PEOPLE

MOST PERFECT MADE

A Periodical Tippler

A doctor's patient in Excelsior Springs the other day was answering the usual list of queries prior to entering upon a course of treatment.

Are you steady, or a periodical drinker? asked the physician.

Periodical, was the reply.

How long between periods?

The poor fellow studied a moment, that he might answer correctly, and replied:

About twenty minutes.

WHEN BABY IS ILL

When baby is ill—when he is troubled with constipation, colic, worms or cold; when his teeth are bothering him or when he is restless and cross and does not sleep well, give him Baby's Own Tablets. They are the mother's greatest aid in keeping her little ones well—thousands of mothers give their babies no other medicine because they knew the Tablets to be absolutely safe. They are guaranteed by a government analyst to be free from opiates and other harmful drugs found in so-called "soothing" mixtures. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Miss Oldum—It is not for the lack of opportunities that I have remained single.

Miss Pert—No, dear, you have given the men plenty of chances to propose I'm sure.

The Proven Asthma Remedy. Since asthma existed there has been no lack of much heralded remedies, but they have proved short lived and worthless. The ever-growing reputation of Dr. J. D. Kellogg's Asthma Remedy has given it a place in the field of medicine which no other can approach. It has never been pushed by sensational methods, but has simply gone on effecting relief and making new converts.

Joe's Automobiling Fun

Yes, remarked Farmer Hodge, my boy Joe gets a good deal of fun out of motor cars.

But he doesn't own a machine. Of course not. He's one of the constables.

A Girl's Letter

Page One, of course, is just Page One.

That fact is very plain. Page Two you see is numbered Three.

Which greatly jars your brain.

Page Three you find, is really Four.

Page Four is Six, that's flat. What of Page Five?

Why, sakes alive; You never do find that.

"SOME HA'E MEAT, AND CANNA EAT"

So Bobby Burns tersely describes the rich, but still poor, dyspeptics. But their case is not now so desperate as when Burns wrote. For the man who has the food now can eat without suffering for it, if he just follows the meal with a Na-Dru-Co Dyspepsia Tablet.

These remarkable tablets banish the troubles of the chronic dyspeptic—the man who is bilious—the sufferer from heartburn, gas on the stomach or occasional indigestion. You can eat hearty meals of wholesome food—and digest them, too—if you take Na-Dru-Co Dyspepsia Tablets.

Compounded by expert chemists, after probably the best formula known to medical science, they are quick and certain in their action, giving prompt relief from all forms of stomach trouble, toning up and strengthening the digestive organs and bringing about permanent cures.

A man is no stronger than his stomach. Fit yourself for your best work by taking Na-Dru-Co Dyspepsia Tablets, soc. at your druggist's. National Drug and Chemical Co. of Canada, Limited, Montreal.

A woman's idea of a rival is another woman who tries to have better clothes than hers.

work absolutely guaranteed as
tested.

Wilson Elected

The Presidential elections held in
the United States on Tuesday resulted
in a clean sweep for Gov. Woodrow
Wilson, the Democratic nominee.
Below is Governor Wilson's strength
in the Electoral College:

Total votes in Electoral College	531
Total votes necessary to elect	266
Votes certain for Wilson	407
Votes certain for Roosevelt	112
Votes certain for Taft	7
Doubtful	5

"Dad, Here's to You"

We happened in a home the other
night, and over the parlor door saw
the legend worked in letters of red,
"What is Home Without a Mother?"
Across the room was another brief,
"God Bless Our Home."

Now, what's the matter with "God
Bless Our Dad?" He gets up early,
lights the fire, boils an egg, and wipes
off the dew of the lawn with his boots
while many a mother is sleeping. He
makes the weekly hand-out for the
butcher, the grocer, the milkman and
the baker, and his little pile is badly
worn before he has been an hour at
home.

If there is a noise in the night, dad
is kicked in the back and made to go
down stairs and find the burglar and
kill him. Mother darns the socks,
but dad bought the socks in the first
place, and the needles and the yarn
afterwards. Mother does up the fruit;
well, dad bought it all, and jars and
sugar cost like the mischief.

Dad buys the chickens for Sunday
dinner, serves them himself, and
draws the neck from the ruins after
everyone else is served. "What is
Home Without a Mother?" Yes,
that's all right, but "What is Home
Without a Father?" Ten chances to
one it's a boarding house. Father is
under the slab, and the landlady is the
widow. Dad, here's to you. You've
got your faults—you may have lots of
'em, but you're all right, and we'll
miss you when you're gone. —Sacklo-
pedia.

Eye Sight

In getting your eyes suited demand
ability, reliability, and above all ex-
perience. Mr. S. L. Taube, who has
had forty-two years experience in the
profession, will be at Chambers Drug
Store, Didsbury, Alta., on Thursday,
November 14th. If there is anything
wrong with your eyesight don't fail to
consult him. All work absolutely
guaranteed as tested.

Don't waste your money buying
strengthening plasters. Chamberlain's
Liniment is cheaper and better. Dampen
a piece of flannel with it and bind it
over the affected parts and it will relieve
the pain and soreness. For sale by all
dealers.

Solon P. O., Alta.

You Take No Risk

Our Reputation and Money Is
Back of This Offer

We pay for all the medicine used dur-
ing the trial, if our remedy fails to com-
pletely relieve you of constipation. We
take all the risk. You are not obligated
to us in any way whatever, if you accept
our offer. Could anything be more fair
for you? Is there any reason why you
should hesitate to put our claims to ac-
tual test?

The most scientific, common sense
treatment is Rexall Orderlies, which are
eaten like candy. They are very pro-
nounced, gentle and pleasant in action,
and particularly agreeable in every way.
They do not cause diarrhoea, nausea,
flatulence griping or any inconvenience
whatever. Rexall Orderlies are particu-
larly good for children, aged and delicate
persons.

We urge you to try Rexall Orderlies
at our risk. Two sizes, 10c and 25c.
Remember, you can get Rexall Remedies
in this community only at our store—
The Rexall Store, H. W. Chambers.
